

DECODED®

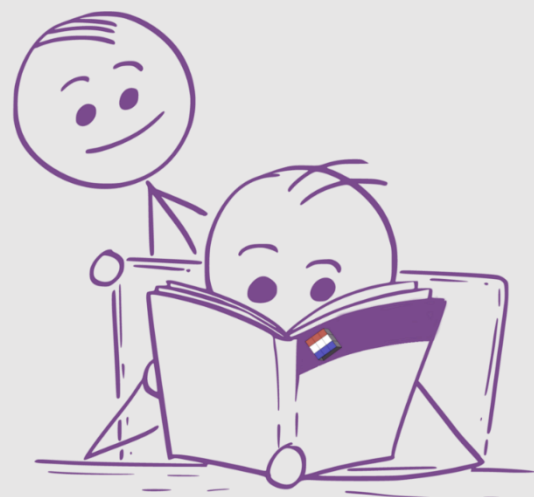

The Extended Purple Book

DECODED® 2 CFR 200.206 Risk and 2 CFR 200.208 Specific Conditions Workshop

Description

The purpose of this course is to provide participants with a functional overview of 2 CFR 200.206 Risk and 2 CFR 200.208 Specific Conditions as it applies to the Pass-Through Entity's (PTE) subrecipients. Before CARES and APRA SLFRF funding, the PTEs were almost exclusively state agencies. Now with more than \$3 Trillion in federal grant spending since 2020, more and more grantees are finding themselves in the PTE role.

DECODED® 2 CFR 200.206 Risk and 2 CFR 200.208 Specific Conditions workshop is hands-on and designed to help Participants discover how to apply and integrate applicable sections to their grant award process. By the end of the course participants should be able to:

- Identify required elements of risk that must be evaluated pre-award
- Investigate where to find grantee data that can be used to evaluate grantee riskiness
- Decide how to calculate and weigh each risk element to ensure equity across applicants
- Discover how to use the resulting risk ranking to apply Specific Conditions
- Illustrate the importance and applicability of Specific Conditions
- Examine when and how Specific Conditions must be applied and removed
- Classify risk and consider which Specific Conditions should be applied
- Connect how the Pre-award Risk Assessment and applied Specific Conditions can be used in the Subrecipient Monitoring process

Handouts

Participants will be provided a copy of DECODED® 2 CFR 200.206 Risk and 2 CFR 200.208 Specific Conditions, Workshop Edition. This manuscript contains an enhanced version of the standard edition, with the inclusion of supplemental material to the lecture and activities for real world application. Electronic copies of the activity data will be provided at the beginning of class.

Requirements

Participants must bring a laptop to complete calculation of workshop Pre-award Risk Assessment. Participants are encouraged to bring a copy of their organization's risk assessment policy document to fully participate in the workshop activities.

For in-person classes, all Local COVID-19 protocols will be observed.

Virtual classes will require a computer and internet connection to stream via Zoom. [Please consult the information on this link for further information.](#)

Duration

8 classroom hours.

Audience

This class is designed for intermediate level grants professionals.

Class Size

This class is limited to 24 participants.

Delivery

Remote – Synchronous
